Foreword

At the turn of the century with many of the greatest scientific strides made, the SHORE-O-SCOPE STAFF has tried to present to you some highlights of the progress made in education at Lake Shore. It is the desire of the 1950 staff that these events here recorded will afford you many pleasures, through memory, in the years to come.

Dedication

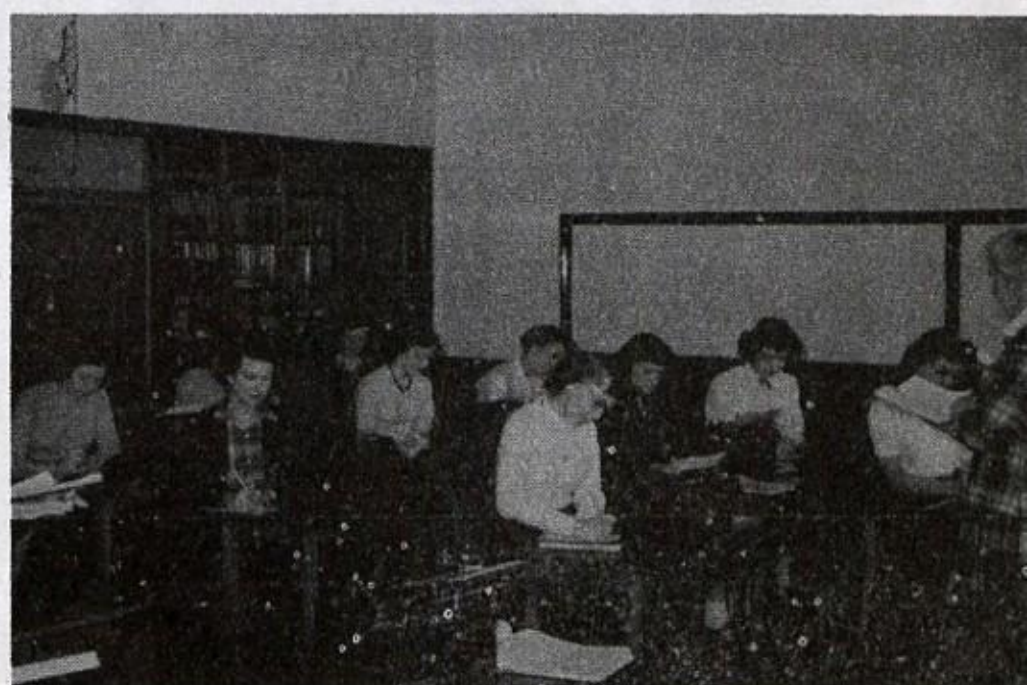

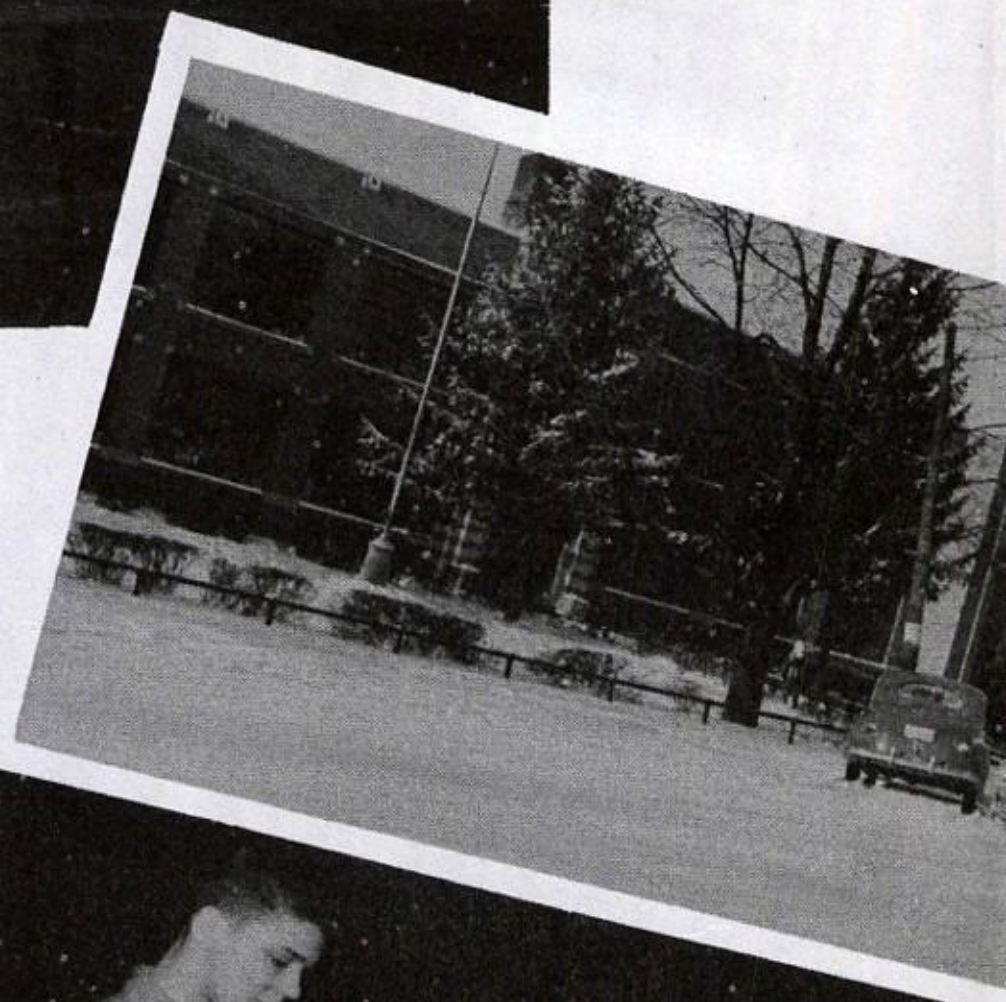

To Miss Doherty

We, the senior class of 1950, dedicate our yearbook to our class sponsor, Miss Doherty, who generously gave her time and assistance even though it meant sacrifice on her part. She had the full understanding of the word work when she took over the duty of class sponsor. In our junior year we were a somewhat disorganized group of youngsters who were lost in the midst of confusion.

This situation was quickly remedied by her foresight and determination to turn our class into a smoothly functioning machine. Through her ability to cope with difficulties, our trip to Washington, D. C. and the publication of this yearbook were made possible. It is highly improbable that we could have accomplished these two great tasks, as well as others, without her help. For this we sincerely thank you, Miss Doherty, and will forever be grateful.

In the year nineteen hundred and forty-six, in the great laboratory of knowledge, Lake Shore High School, a small group of hopeful scientists began their hard work on a new research project--their goal--the synthesis of a graduation diploma. The experiments were many and the explosions few, but, on they went through the years, picking up new staff members and losing others. They established a fund which they hoped would make possible the dream of every young scientist, a field trip, the culmination of their years of research and experiments.

These 60 scientists met in this huge laboratory and completed their first experiment. Data sheets showed the following results:

President	Ellis Wallace	Treasurer	Ray Whitmore
Vice-President	Tom Hitt	Advisor	Miss Elwell
Secretary	Carmen Monet		

The first bang from the test tube of entertainment resounded with a Square Dance in conjunction with the P.T.A.

The second year research began with a study of the conifers, and of partial parasites such as mistletoe. When this project was completed in December, the

group turned to the physical sciences particularly to the effect of gravitational attraction as illustrated by the swinging of the pendulum. Directors of this Sophomore swing and of all research were:

President. Margaret Smith	Treasurer Shirley Selegan
Vice-President. Lloyd Corston	Advisor Miss Kelly
Secretary. Dick Krieger	

The following year all research activities were speeded up and the field of investigation was extended. In October attention was devoted to hunting microbes in a regular Hunters Ball. Since the atmosphere was very clear a number of interested observers assembled to witness this experiment.

Later in an important study of temperature control, and the condensation of water to form ice and snow, the Junior scientists proved themselves capable of producing a Winter Wonderland.

Turning their attention for a bit to the study of the precious metals, the group collaborated with the L. G. Balfour Co., on determining the properties and principle use of the familiar Au, gold. At the completion of these experiments, metal was cast into rings which illustrated the outstanding properties tested.

Some members of the staff then turned to a study of genetics with particular emphasis on the effects of heredity, environment and the in-law relationships on individuals. Here again a large number of interested laymen examined the results of study.

Working under a grant with the Williams Paper Co., the entire group turned their attention to the paper processing, and the preparation of various inks and dyes. This difficult project received further backing from local residents.

The female scientist prepared various mixtures of $C_{12}H_{22}O_{11}$, $NaHCO_3$, H_2O , $NaCl$, calcium compounds, lactic acid, and flour, with no explosions and no gastronomical disturbances; the entire project proved quite successful. Both the scientists and the advisory committee were highly pleased with the data gathered.

The final project for the year was a field trip to Belle Isle. The 49er's were invited to assist in this experiment. Starches, sugars, proteins, carbonated beverages were the results of this tinkling of test tubes. The entire test was hindered somewhat by the formation of disturbances in the elements, which finally forced the group to abandon the experiment and seek shelter in the botanical gardens. Directors of research for 1948-49 were--

The fall of 1949 brought promises of vast and varied research to climax the years of study and experimentation toward the goal—the diploma. Through the fall and winter months a series of reactions were run every Friday. Trials I, II, III, IV and V were checked and results found to be very favorable.

In an attempt to insure a well informed and open-minded public the group set about disseminating scientific journals to the entire area surrounding their laboratories.

A drive for patrons for the football programs necessitated intensive research on coal tar products particularly the salicyclic acid derivative commonly known as aspirin.

At the end of November when this research had produced the desired results, attention was turned again to the realm of physics where the mysteries of television were explored. This enterprise was judged really successful, since it made possible more complete planning for the gigantic field trip to be made in June.

Returning to the biological, experiments were made to determine the true nature of the photosynthesis and the properties of chlorophyll. Moving on to a study of animal life, the attention was focused on the Annelid Lumbricus Terrestis and Lumbricus Agricola. The results of the experiments were gathered together for the public in "Spring Green."

The test tubes of entertainment were set tinkling once again, and from them issued a sock hop, a square dance and a cabaret dance. Also in the line of entertainment was the Annual Ball which climaxed the Lake Shore Senior (continued - page 42)

FOOTBALL 1949

Undaunted by the stifling heat, Lake Shores enthusiastic team returned to their August pre-school grid iron. The 55 players were greeted by their new coaches Bill Wall and Charlie McLean. Head coach Wall planned a vigorous training program.

Finally the eagerly awaited moment arrived, when Lake Shore's eleven met Fitzgerald on our field. The Shorians pleased a huge opening game crowd by humbling the blue devils, with a 47 to 0 score.

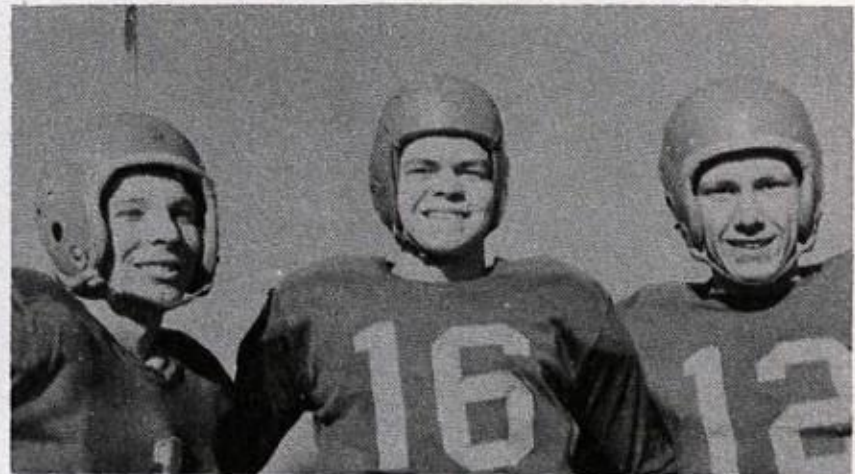

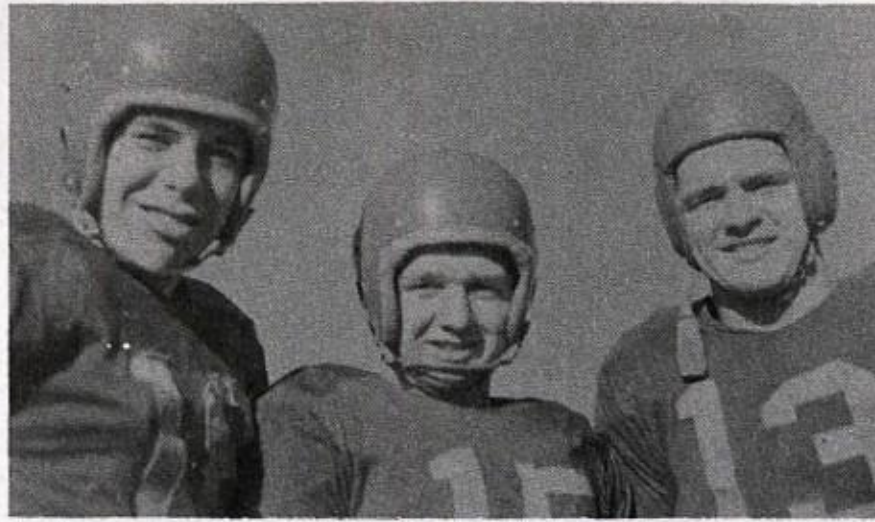

With the scent of victory still throbbing in their heads the Shorians proved their abilities

against Roseville, in a tussle which ended in a 19 to 12 victory for Lake Shore.

Our Shorians met their match in their opening conference game against a husky Warren team. The combination of the afternoon heat and a huge Warren team seemed too much for our Shorian eleven, who faced a possible 6 to 0 defeat, till the remaining seconds of the game, when Harden Culberson recovered a blocked punt in the Oriles end zone, tying the game 6 to 6.

The Shorians speared on by their near defeat in the last conference, developed lightning speed and vicious striking power, to suppress a surprised Busch team by a victory of 25 to 0.

Football

By this time the Shorians were resigned to at least a tie in the Bi-County title, as they whipped a meek Utica team, 27 to 7. She managed to hold Utica scorless until the last few minutes of the game, when the chiefs scored their only tally, with a four yard pass.

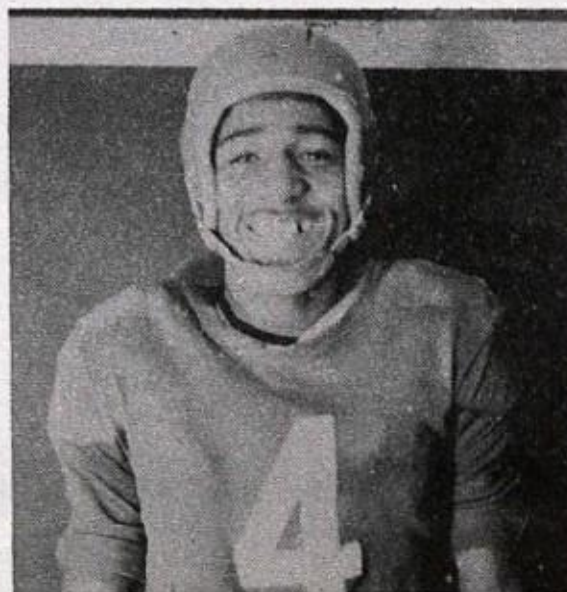

As expected the courageous but inadequate Lake View huskies were no match for our powerful Shorian gridders, and absorbed a 29 to 6 beating.

To stay in the race for the Bi-County cup a victory over Eastland was needed since Warren had clinched its share of the Bi-County title by defeating Utica. Our Shorians once more aroused by the grandure of this title kept pace with Warren by a 21 to 7 victory over on Eastland's nine mile gridiron.

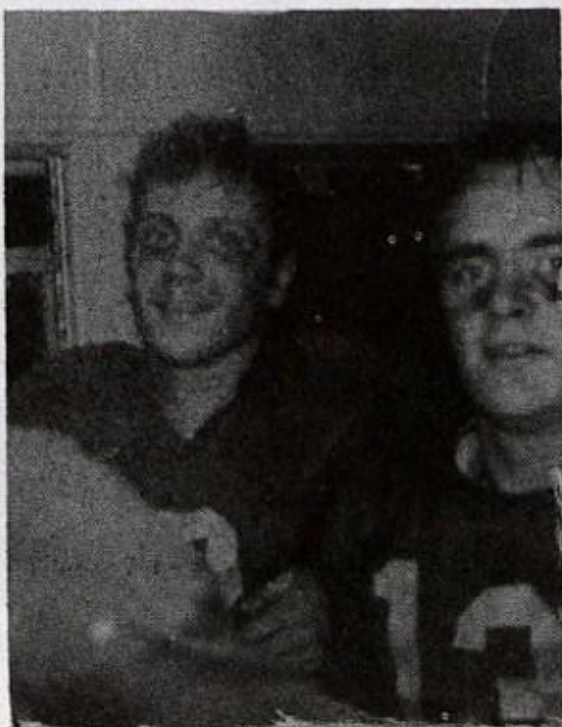

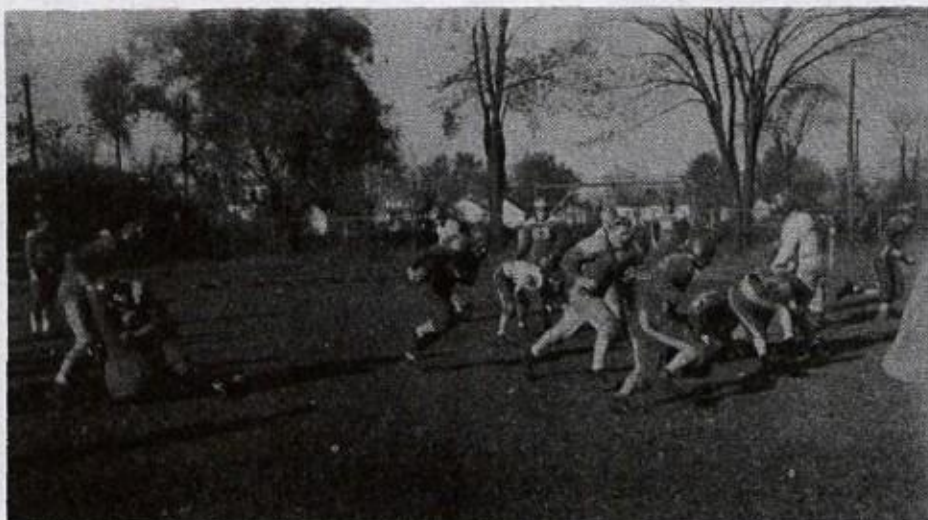

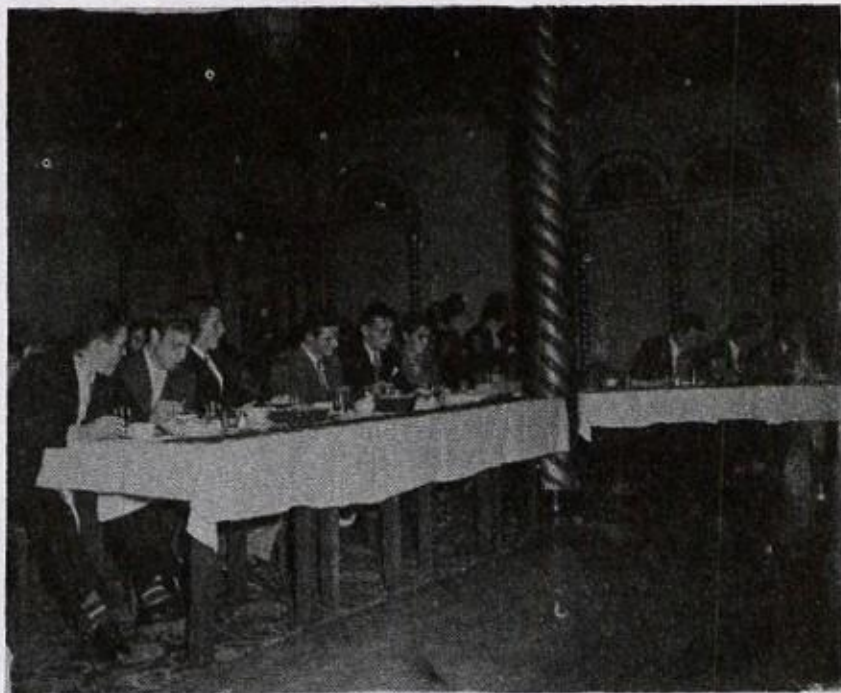

We met our match, and lost our final chance to share the Bi-County crown, as South Lakes keyed-up eleven upset Lake Shore's over-confident gridders and coach 2 to 0.

Although disheartened by the loss of the Bi-County, the Red and Gray's rejuvenated themselves to defeat the last rival of the season, Marine City, which was a non-league encounter, by the score of 37 to 7.

Congratulations are to be extended to Tom Brophy and Granville Wright for being selected on the Bi-County team and receiving honorable mention on the All State team. Congratulations should also be extended to Tom Hitt, Dick Krieger, Bob Adams, Ray Whitmore, Ellis Wallace and Ken Finger for receiving honorable mention on the Bi-County team.

1949

Basketball

Row I: Wallace, Wright, Franson, Hitt, Barry, Krieger.

Row II: Mr. Beach, Smith, Bingham, Gunningham, J. Bingham, Kravitz, Mr. McLean.

BASKETBALL

Late November found the Shorian spotlight focused on our basketball squad. Charlie McLean, our new head basketball coach, eagerly greeted the prospective first teamers, while Bill Wall took the young hoopsters of the second and the third under his protective wing.

The red and gray cagers started the season with a bang by coping a 64-40 win over the East Detroit's B team. In the next game we found the going a bit rough as we toppled before the Mt. Clemens Bathers.

Bad luck continued to plague, as we dropped the following successive games to Utica and Southlake. We then briefly jumped aboard the victory wagon by downing Auburn Heights to the tune of 42-36.

After being disheartened by six consecutive losses, the morale of our Shorians picked up as we whipped Fitzgerald 47-34, and St. Philips, of Detroit Parochial League, 51-42. We wound up our season by being defeated 69-40 by a powerful Busch team.

TRACK

With only eight letter men at the helm, the Shorian thin-clads were to prove themselves a respected foe in the tussle for the Bi-County crown.

With injured members on our relay team, we found the going a bit rough and lost our first dual meet against Southlake. In the next meet the Red and Gray trounced a meek DUS team. Lake Shore went on to easily capture the first triangular meet of the season against Roseville and Eastland. We were next pitted against Van Dyke, a large class A school, to whom we lost by a mere three points.

This year seven Bi-County track teams met on our field for the first annual Bi-County meet since the late 1930's. Out of the seven schools participating in this meet, the Shorians had to settle for second place.

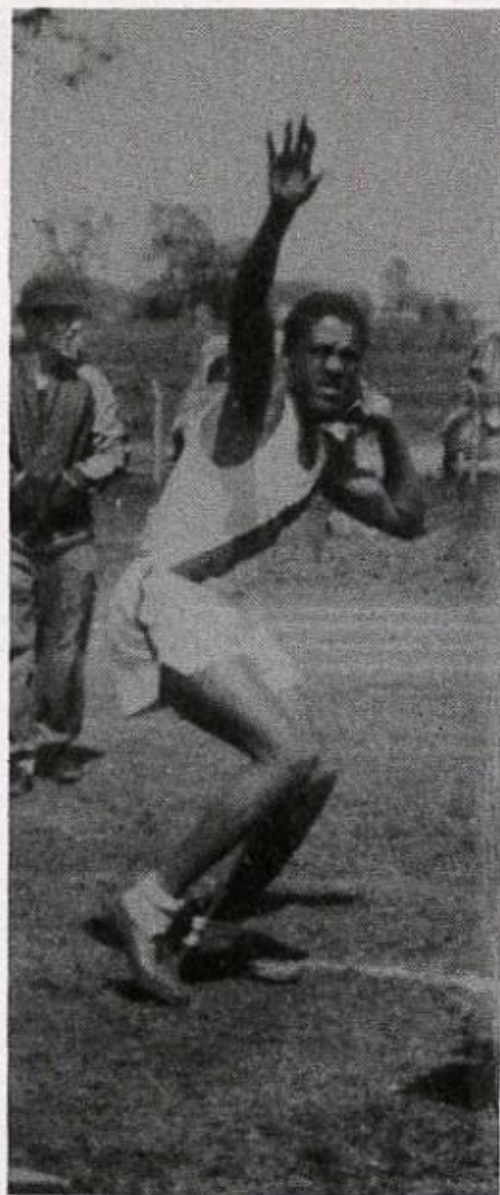

The Shorian thin-cladders traveled to Marine City to participate in the regional meet, to again capture a second place berth. Those who qualified for the state meet collected but a few points in the stiff competition, in drawing the track season to a close.

GIRLS' GLEE CLUB

The Lake Shore Glee Club has made great strides since its organization under the direction of Miss Anderson. Every student who participates is vitally interested in its progress and pleasure through the medium of choral singing, as well as a reasonable degree of perfection, is the goal of the organization.

Having earned an excellent rating in the district contest last April, the group worked zealously until they journeyed to Michigan State College to compete with other Class C schools. A Superior rating was secured--the highest rating to be attained--as a fine reward for efforts of the year.

A program offered by the A Capella Choir from Central Michigan College under the direction of Mr.

BOY'S GLEE CLUB

An innovation at Lake Shore, the Boy's Glee Club, under the direction of Miss Anderson, has laid the foundations for promoting greater interest and enthusiasm for music while giving valuable training to the boys. The group is small in number, but their per-

formance for the P. T. A. showed quality of voice and instruction. With the knowledge that from a small beginning fine things develop, the group is looking forward to greater and more far-reaching experiences in the future.

Science Club

Why is science so essential to young American minds? The answer is very evident when we consider our world just recovering from a long and serious war. America needs scientifically trained young men and women who, by their training, can see the problem at once, plan its solution and finally carry out the necessary experiments

and activities which will produce the desired result.

Scientific activities within the school benefit not only the pupils in the school, but the whole community and nation. Science Clubs provide opportunities for the discovery and cultivation of interest, inventiveness and leadership which are so essential today and in the future.

Camera Club

Early in the spring term of 1949 the amateur shutterbugs of Lake Shore decided to band together and form a camera club. Pooling their equipment gave each member the opportunity to go into the advanced stages of photography. Interest quickly spread to other students, who although they had

little or no knowledge of photography, decided to enter the club. The experienced members who knew the fundamentals of photography took it upon themselves to teach the new, inexperienced members the ropes. The club's ultimate goal is color, which they hope can be accomplished within the next year.

 Row IV: Wambach, Townsend, Winczner, Carpenter, McSweeney, Bischoff, McCloskey, Williams.

Student Council

Each member of the high school looks to the Student Council for guidance, both in his duties to himself and to his fellow students. It is the chief object of this organization to see that our students are well instructed in the responsibilities of good citizenship.

The council is composed of class officers and club representatives who are qualified to assist in the leadership of their school. Its actions are

based on the wisdom of the faculty advisor.

Through the sale of candy at noon they expect to furnish new props for the stage as well as give financial assistance for the purchase of a camera and equipment for school use.

It is our hope that the sense of personal responsibility fostered by this organization will aid the students to achieve that self-discipline so necessary in their future lives.

Office Help

The duties of a secretary are being instilled in the eleven senior office girls who perform many and various jobs during the school day. Included in their many tasks are typing, filing, taking dicta-

tion, recording absences and tardiness.

The experience they receive now will benefit them greatly after graduation, when they are looking for an office position.

Row I: Heemer, Hansen, Rivard, McCloskey, Alexander.
 Row II: Selegan, Monet, Melton, Kroll, Spear, Babcock, Bromm.
 Row III: Bailey, Mr. Gavrilla, Mr. Eidt, Mr. Beach, Mrs. Teskey, Verlinde.

Row I: Gingrich, Carpenter, Quigley, Miss Kelly.
Row II: Verlinde, Yarnall, Bromm, Jaschob.

Library Staff

Students in the tenth, eleventh and twelfth grades serve as assistants on the Lake Shore library staff. Their work consists of issuing and receiving books, collecting fines, admitting students, and the general maintenance of good library atmosphere

and activities. One librarian is on duty each hour of the school day; during periods when the number of students using the library warrants, the services of two librarians are available.

Shorian Staff

The journalism class forms the nucleus of the Shorian staff, with other students eligible to work on the school paper as an extra-curricular activity. Opportunity is provided for participation in the processes involved in getting the paper out--

assignment of stories, preparation of copy, typing, use of the ditto and mimeograph machines, assembling and distribution of copies. The board of editors and the managers serve as co-ordinators of these activities.

Row I: Krieger, Wideman, Adam, Culbertson, Bulla, Marini, McClay, Sharp, Wallace, Cole, Whitmore.

Row II: Williams, Thomas, Carpenter, Potter, Hitt, Yarnall, Gingrich, Smith, Hubbell.

Row III: Cantrell, Bailey, Babcock, Williams, Wright, Quigley, Hansen, Moenart, Yunke, Breckner, Kroll, Heemer, Lacey, Green, Barton, Noonan, Miss Kelly.

Row IV: Shaughnessy, Jaschob, Selegan, Melton, Monet, Alexander, DeMaria, Scholz Bromm, Verlinde, Wolfrum, Miner, Spear.

Row I: Wolfrum, Ziegler, Verlinde, Yarnell, Franson, Moenart.
Row II: Miss Carrithers, McClay, Genereau, Drake, Litherland, Williams.

Debate Club

Under the competent direction of their coach, Miss Joyce Carrithers, the debaters won five of eight debates, thereby earning another plaque for Lake Shore. The Red and Gray debaters won the first debate in the section contest at Saline, Michigan and lost a very close debate in the second round of eliminations.

The question for debate was:

Resolved: That the President of the United States should be elected by a direct vote of the people.

John Ziegler	Negative
Charles Franson	Negative
Rosemary Verlinde	Affirmative
Jane Yarnall	Affirmative

Nine members who did not actually participate in the debates, supported and worked with the team during the debate season.

Forensics

The local forensics contest was held on March 9th and 10th in the Lake Shore auditorium.

There were six contestants in the dramatic reading division: Charles Franson, Colleen George, Connie Hubbell, Janet Lindsay, Mary Sant and Noel Williams, "Two Little Black Boys" was the reading which gave Charles first place. Second place went to Colleen, who gave "Sixteen". Connie place third; the title of her reading was "Ralph".

Original oration drew five contestants: Marilyn Genereau, Bernard Gillard, Jack McClay, Don Moenart and Jane Yarnall. First place went to Jane for her oration,

oration, "Communism or Democracy?"; Jack won second place with "The Quality of Mercy".

In oratorical declamation, Bob Litherland received first place for his reading of "The Torch". Contestants in extempore speaking were Bernard Gillard, Don Moenart and John Ziegler. John won first place and Bernard took second.

Representing Lake Shore in the district contest held at Lakeview on March 29th were Colleen George, Bernard Gillard, Connie Hubbell, Bob Litherland, Jack McClay, Jane Yarnall and John Ziegler.

Row I: Yarnall, McSweeney, Moenart, Rivard, DeMaria.
Row II: Monet, Verlinde, Ziegler, Bailey, Miss Carrithers.

Row I: Wisman, VonItter, Drake, Genereau, Powell, McClay, Yonis, Roobaert, Weber.

Row II: Glander, Macey, Stenquist, Hubbell, Banks, Williams, Schmelzer, Heacock, Geriba.

Row III: Miss Baumann, Holmes, Wambach, Barton, Keller, Cooney, Cole, Johnson, Wisman, Williams, Gorman, Winczner, Utt, Liller, Fink.

Row IV: Barker, Dunnell, Helving, Hayden, Williams, Donahue, DeMaria, Bulla, Corston, Butcher, Payer, Rodgers, Alexander.

F.H.A.

FUTURE HOMEMAKERS CLUB

The F. H. A., with one year of organization behind it, is beginning to grow and prosper under the guidance of Miss Baumann, the Homemaking instructor. The membership is large, consisting of girls who have taken homemaking the previous years as well as those now enrolled in that department.

At the first meeting of the current school year, Alice Alexander was elected president, Sally Keller, Vice-President, Connie Hubbell, Secretary and Pat Barton. Treasurer

The girls have planned a money making program to enable them to begin their pet project of the year--equipping the girls' rest rooms. This project may extend into next year's activities, but the club members believe that by undertaking a project that will be of value to all the girls in the school, the club will gain recognition as a worthwhile and progressive organization.

As Future Homemakers of America, the ultimate goal of the girls in this club is to formulate an integrated program providing for both the social and educational values of home and family living.

Hall Monitors

MONITORS' CLUB

Who helps keep the halls of Lake Shore free from papers? Who reminds you to hurry to your classes, and to close your locker doors?

It's the members of Lake Shore's Monitors' Club, of course. They have maintained orderly halls and deserve much credit. The monitors are prepared to

act and guide the students in case of fire or any other emergency.

The president of this organization is Ray Whitmore, who is in charge of the twenty-one fellow club members.

This is a typical example of teachers and students working together to achieve a better name for our school.

Row I: Moenart, Bingham, Josephson, Ziegler, Soye.

Row II: Johnson, Whitmore, Wallace, Charlie, Litherland, Mr. Beach.

Row III: Yarnall, Winczner, Gorman, Verlinde, Jaschob, Alexander, Cole, Sant.

Row I: Bingham, Finger, Krebs, Franson, Bischoff, Winczner, Ziegler.
 Row II: Mr. Beach, Whitmore, Barry, Wright, Downer, Charlie, Mr. Wall.
 Row III: Wallace, Brophy, Corston, Krieger, Hitt, Adams, R. Whitmore, Culberson, Kent.

Varsity Club

The Varsity Club is an organization for boys who have earned a letter in any of the high school sports. Composed of athletes, its primary interest is to promote better athletic standards. This year the club held its annual initiation during the noon hour.

A dance called "The Varsity Drag" was held on St. Patrick's Day night. It featured a variety of

skits including black face, radio interpatations, and musical numbers.

Tom Brophy heads the club with the following officers assisting--Ken Finger, Vice President; Lloyd Corston, Secretary; and Tom Hitt, Treasurer.

Mr. Wall and Mr. Beach act as sponsors.

Cheer Leaders

What is a school without its Cheerleaders? We at Lake Shore are very proud of these young girls who have been able to instill the good old "Do or Die" school spirit for dear old Lake Shore.

Captained by Ardean McColley and under the direction of Mrs. Jiles, the cheerleaders have worked tirelessly for originality in cheers and perfection in executing for them.

Row I: Stenquist Berreuzo, Barton, Miner, McColley, Payer.

Senior Class Play

Row I: Mr. Beach, McSweeny, Wikarski, Melton, Marini, Wideman.

Row II: Miss Doherty, Babcock, Spear, Soye, Bailey, Williams, Selegan, Jaschob.

Class History - Continued

Scientists Convention in May.

The big project of the fourth year of research was a carnival held in the spring. Individual research was keynoted with a project to suit every taste. For the mathematical minded there were games to determine probability ration and the statistics compiled were most enlightening. For those more interested in the biological science there was an opportunity to study various causes of riger mortis in the Faculty Graveyard. For those more interested in the digestive process ample provision was made for extended research. These and many more served to satisfy the staff and the numerous visiting scientists.

The four years of research was climaxed by a gigantic field trip to the home of the Bureau of Standards and the Smithsonian Institute. Here some government research was viewed at close range. Returning home after the trip it remained only for the scientists to clear up a few remaining details before the ceremonies which brought to an end their association with the Lake Shore Laboratories. Data books which contained accounts and graphic descriptions of all projects and experiments undertaken during the four years of research were checked and found to be complete and accurate. Directors of their last year's activity were:

President	Dick Krieger
Vice-President	Lloyd Corston
Secretary	Carmen Monet
Treasurer	Tom Hitt
Directors	Miss Doherty, Mr. Beach

Considered as a whole the four years of research were judged most successful. What they originally sought they had at last obtained--the diploma, and their data books showed many incidental experiments whose successful completions made possible the final attainment of their goal.

Local Chorus
ST. CLAIR SHORES — Last chance to become a member of the St. Clair Shores Teen-Age Fine Arts group is Monday, according to the Recreation Commission.
 The emphasis at the present time has been upon the formation of a vocal chorus. Meetings are held each Monday from 7 until 9:30 p. m. in the ballroom of the Civic Center, 24800 Jefferson avenue, and at the direction of Fred Hinton, head of a local dance class.

Public Speaking Class
ST. CLAIR SHORES — A cost-free public speaking class, sponsored by the Recreation Commission, opens at 8 p. m. Thursday, March 9, in the Civic Center.
 Mrs. Katherine Square Dance
ST. CLAIR SHORES — Lake Shore's senior class will sponsor a square dance Friday, March 10, in the school gym. There will be a band and caller.

Macomb School Maintenance Discussion
 "The Role of the Janitor in School Maintenance" will be the subject of a round table discussion at the February School Administrators' Association at Hillcrest Country Club on Feb. 8th.
 Earl S. Eidt, superintendent of the Lake Shore schools and Charles Goetz, superintendent of the Kern Road schools, will be in charge of the program.

Teachers Skate
ST. CLAIR SHORES — At February coffee hour, members of the Lake Shore Teachers Club made plans for the skating party which was held at the Mount Clemens Arena last evening. Hostesses at the meeting were Mrs. Dorothy Gleston and Mrs. Elaine Miss Ruth Baumann is president of the club.

Kiwanians in Shores Planning Spring Show
ST. CLAIR SHORES — A variety show, to be held in the spring, is being planned by the Ways and Means committee of the Shores Kiwanis Club.
 The show was approved by the board, of 27750 C. He attended a
